

3 Spies Saving the World, 1 Husband at a Time

36 Husbands

"An infectiously engaging globetrotting romp which somehow manages to incorporate kung-fu action, spy intrigue, and RomCom into a musical format. Only the 'Gorilla' moviemaking team of Michael Glover and Robyn Rosenkrantz could conceive such a genre smorgasbord – and actually pull it off."

Max Alvarez, Cinema Historian, Director & Author, New York

"I love your movie! The writing and acting are so funny. It's a cult classic. And the songs are fantastic!"

Martin Olson, Comedy Writer, TV Producer, Author & Composer, Hollywood

"Bright Blue Gorilla's latest creation is a sweet little monster of a comedy."
